About EVA

EVA (Electronic Validation Assistant) is an Online-System for the administration of sporting events (EMS) and the execution of complex business processes (SCC).

EVA delivers software as a service (SaaS) over the Internet, eliminating the need to install and run the application on the customer's own computer. This kind of service is also known as "Cloud Computing".

Cloud computing provides the end-user application software, database access and storage services without technical requirements and knowledge about the hardware configuration.

EVA-EMS ePayment

The rapid acceleration of the digital economy is driving fundamental changes in global commerce. What has been science fiction in the past, is normality nowadays.

The EMS now offers an online payment processing similar to what everybody knows from merchants all over the world. This way your customers (participants) can do their payment right after the registration without extra actions - quick and secure!

Thanks to our cooperation with **INGENICO ePayments** you may choose among over 150 different credit cards and alternative payment methods. You will have only one contract

to manage and receive a single report/remittance for all activated payment methods, instead of having to manage different contracts, reports, payment cycles and conditions for each individual payment method.

The **EMS online payment** capability definitely simplifies the payments reconciliation process and reduces the demands placed on your finance department.

About INGENICO

INGENICO ePayments is the global reference in payment solutions dedicated to online and mobile commerce.

With advanced data analytics, fraud management solutions, variety of payment methods available and cross-border commerce expertise, INGENICO ePayments helps merchants to optimize and grow their business.

INGENICO is a Payment Service Provider (PSP). This means that this platform provides access to over 150 different international credit cards and alternative payment methods with just a single technical connection.

You can offer the local payment methods and currencies that your customers prefer in different countries all over the world.

And because INGENICO has a global presence - you don't have to open multiple bank accounts or form new legal entities in each country you sell in.

Find more details on the providers homepage under <https://www.ingenico.com>

How it works

Visit <https://www.ingenico.com> and register for an account. Define your company settings and the bank details to which you want the payments to be transferred. Select the credit cards and other payment methods you want to offer.

Goto your EMS General Setup and enter the required parameters which you have got from the INGENICO registration.

ePayment	
Local currency	EUR - Euro Member Countries
ePayment-URL	https://secure.pgone...
Passphrase	mypersonalpassphrase
PSPID	myspsid

General SETTINGS

- Generate starting number automatically
- Allow participant to modify his personal data
- Send registration confirmation to participant
- Search for existing membership number
- Allow registration en bloc (block entry)
- Allow electronic payment (ePayment)

Activate the electronic payment capability in the EMS Entryform Setup and specify your fees in the EMS Classes Setup. That's it.

CLASS	CLASSNAME	TYRE	BREP	EXVE	EXDH	EXEN	EXCA	EXEX	EXTY	MHBN	MAXSN	MINAGE	MAXAGE	MINWE	MAXPAM	ONE	ALLFREE	SLASH
DD2	Max DD2	D4	1	0	1	1	0	0	2	301	399	15	99	170	34	60	600	0
DDM	DD2 Masters	D4	2	0	1	1	0	0	2	401	499	32	99	175	34	150	500	100
JUN	Junior MAX	D2	3	0	1	1	0	0	2	101	199	13	15	145	34	160	600	0
MIC	Micro MAX	C2	4	0	1	1	0	0	2	11	49	10	12	110	34	100	350	0
MIN	Mini MAX	D2-6	5	0	1	1	0	0	2	51	99	12	14	130	34	100	350	100
SEN	Senior MAX	D4	6	0	1	1	0	0	2	201	299	15	99	160	34	160	600	0

Once you are done, the EMS system will automatically calculate the required amount and direct the user to the secure payment page of INGENICO each time he does a new subscription.
